Customer Reviews

These puzzles take some time, but they are not "diabolical". Solving them is a great way to relax. Enough said!

They aren't kidding about these Sudoku puzzles. They are really tough! I recommend them to anyone who has done so much Sudoku that the regular ones seem tame, and they are looking for a challenge. Definitely not for the beginner.

Great hard to very demanding puzzles. One per page with plenty of room for notes. Was great for long trip to Paris the past couple of weeks.

The title of this book is somewhat misleading. I wanted "Hard" puzzles, but this one is 50% "Hard" and 50% "Very Challenging".

My husband and I work Sudoku daily for fun and to keep our minds alert. Mr. Shortz books are always good but I wish he would come out with some diabolic puzzles. has the best selection I've found without shopping all the book stores.

These puzzles are enough of a challenge to make it interesting. And they are solvable - not too hard that they cannot be figured out. This is what I needed for my level.

This is an excellent Sudoku book but it was too difficult for me, who normally does not write down numbers-not as much fun as I like-you will have to write down numbers to be able to solve the "easier" puzzles.

After solving more than 2000 Sudoku puzzles, I was glad to find a book of puzzles that are difficult but do not rely on esoteric strategies to solve. Some of the strategies, like Swordfish or WXYZ Wing, are so esoteric they are not fun. The puzzles in this book can be solved with common sense and do not require the intellect of a Big Bang Geek. (If you are not familiar with the esoteric strategies, see [...])
