Customer Reviews

I liked these but many of my classmates did not. Just like with the Contracts version, you'd be amazed at what it calls to mind, what you have forgotten, and what actually applies. Helps to reinforce themes. I don't like the organization system and wish it was an app. If I drop my phone, it's not an endeavor to reorganize everything.

These are a good tool to test your mastery of torts fundamentals. But, they are not an exam study shortcut. I would use these after class to make sure you fully understood the material for the day. As finals come closer, you should transition from these to doing practice tests.

I LOVE THIS! I am preparing for my exam now with it and I can tell you EVERYTHING we covered in class is presented in this series but in a FUN and explicit yet concise way! I feel like I could have just learned torts from this series lol! It will be a great supplement with your class, my advice is to use it as you go only with the class so you have already learned much of the info you are just re-studying rather than learning lol! DONT go ahead of your professor because once you get to

negligence you can get confused :)

Great for helping study for my torts final. Start studying them early, because theres a TON of info in them. The examples and practice problems are entertaining and super helpful. Definitely worth the money!

We had probably the worst Torts professor at any top 50 law school. She didn't even know the elements of Assault. The flash cards were pretty clutch, especially for intentional torts. The goofy character names and outrageous situations in the fact pattern questions made them fun to go through and really helped the material stick. They give mnemonics for black letter law, but I'd recommend coming up with your own so they're easier to remember. All in all, though, I'd say this was a pretty good purchase and use of my time while cramming.

This is a great study aid for all first year law students. Each of the over 600 flash cards asks and answers questions designed to assist in learning first year law school torts. Each section of the flash cards (e.g., nuisance) starts with cards setting forth the black letter law (the elements) of most of the common law torts from assault to malicious prosecution. These cards are followed with flash cards presenting short fact patterns designed to test your understanding of the specific issues concerning those black letter torts. They are very effective in helping the student to focus his or her thinking process. Informative, fun and imaginative. I actually used these to study for my Torts final. Got an A. I've worked as a paralegal for about 10 years and knew how to take the test, but these tightened down my language and helped me review.

These provided a good overall review of the major areas of torts as I start refreshing in prep for the bar exam. The user will not relearn all the elements of torts, nor does it substitute for a good solid study of the subject. It does, however, serve as a great test and refresher, and the hypos are very useful and very similar to practice MBE questions.
