Hearing your voice in your might seem that your voice is deeper, however the truth is that it not what you would expect. When you record your voice you will notice the difference. This is not just a book on the best way to get a more attractive voice. This book instructs you how to get more out of it.

As a person who used to have a very weak voice with no depth and power, I used to feel so angry about the fact that I could not do anything to change it. I read and watched tons of books&videos that 'seemed' to contain information on how to develop a deeper voice. Well, none of them really worked. My concern became bigger, and I even thought of doing a vocal surgery to make my voice deeper...YET!!This book totally got rid of my concern because after a few days of doing the exercises listed in the book,I got a deep, resonating and nice voice that I wanted for such a long time.Well, I can't imagine how awesome my voice would become after few more weeks of this !! promise. This book 100% guarantees that You will have a deeper voice no matter what!Only downside is the way the book is written.What you really have to know can easily be summarized into 5 pages,but as you might see that book is almost 100 pages in length.So. Conclusion:Buy the book. the exercises only take 10 minutes to finish. You only have to do the exercises upon awakening, so it's easy

I didn't know that how deep your voice is has an impact on how much people earn as well. According to the book, research showed that leaders in big companies who have deep voice earn more than their peers. Also, men with deeper voice have better luck with the ladies. I believe what the book said that sometimes it's not what we say that's remembered but how we say them like the tone of the voice. The exercises seem easy and I will surely try them.

This book provides great exercises if you want to have a deeper voice. I noticed that powerful men have deep and modulated voice. I don't know why but it is so. Like newscasters who seem credible reading the news even if we don't have any idea who they are or even if the news are true. Even the ladies are attracted men to who have deep and soothing voice, take Barry White for example.

Silly, lame and useless. The grammatical and syntax errors alone give the feel of an off-shore, out-sourced-eBook-for-profit speculation. The material is directed at wannabe pickup artists. Not for those wanting to strengthen their voices. Avoid. Alexander Valmont, really? Sounds made up, doesn't it? Like the 5th Musketeer? If we want to improve our vocal strength, we may have to spend a little more for education.

It works, it really does. This is the best book on the subject. Forget about the other ones. This one is really well done and you can feel the author really knows the subject

Great book! It contains step by step guide which will teach you how to deepen your voice. All provided exercises are very easy. I recommend everyone to read this book.
