# A Visitor's Guide To Hell: A Manual For Temporary Entrants And Those Who Would Prefer To Avoid Eternal Damnation

## Synopsis

Here's everything you ever wanted to know about Hell . . . but were too afraid to ask! In the realm of eternal damnation, what tortures will we find? How hot is it, really? And most important of all, how can we make sure that it's not our final destination? Drawing on the Bible, as well as a host of other literary and religious sources, an expert on Scripture provides an illuminating look at Hell "from its occupants to its don't-miss sites. Dr. Clint Archer offers a thought-provoking, learned, at-times-hilarious guide to a place that might be interesting to visit . . . but you wouldn't want to live there!

## Customer Reviews

One doctrine upon which almost all religions agree throughout history is hell. They may not agree about the details, but they agree that there is a hell. In *A Visitor's Guide to Hell: A Manual for Temporary Entrants and Those Who Would Prefer to Avoid Eternal Damnation*, Clint Archer describes what we can know about it. I'll say up front, I don't know how to do this book justice. I had started writing a review while reading it (aloud to my husband). Then last night, after the last chapter and conclusion, my husband and I were speechless for a couple of minutes. You need to read this book! But please don't read the end first. At only 141 pages in eight short chapters, you won't have to wait long. To write about hell, Dr. Archer bases his observations on the Bible, not ideas from philosophy and religions. He reasons that Jesus is the Authority on the topic. No one else has the knowledge or resources to know what they're talking about. A few people claim to have been there and come back, but Jesus said that once you're there you

can't escape. So we have no eye witnesses on earth, not in all of history. In contrast, Archer quotes verse after verse from the Bible to back what he writes with the testimony of the One who made hell. Dr. Archer treats this hot topic respectfully while applying a few cold packs of humor to cool and lighten the atmosphere, at least for the reader on earth, starting with the table of contents.
